
150-foot folding container for ships

What is a collapsible shipping container?

Shippers are demanding improved efficiencies and sustainability throughout their supply chains. COLLAPSECON is the collapsible shipping container pioneering the future of global trade. It's practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions.

Are foldable containers a good idea?

Yes. It's that simple. It's true, all the big shipping lines and shippers have seen the full potential of our foldable containers. Cutting out inefficiency in the supply chain and hitting corporate sustainability goals as well. It's time for you to take responsibility.

What is a foldable container?

Such foldable containers are compatible with the normal ISO-approved TEU or FEU and are strong enough to be placed anywhere on a shipboard stack. Any number of containers from 2 to 5, can be folded and stacked in such a way to form a regular container size for transport or storage.

When did foldable shipping containers come to light?

Business establishments and freight and transport operators got so used to rigid shipping box containers that foldable containers never came to light until about 2008. Imagine flat-packing your empty shipping containers and stacking them when not in use or during transportation.

By bypassing the need to transport empty containers to a dedicated folding facility and instead folding and bundling them on-site, we achieve significant cost savings. The cost savings ...
