What is a car inverter converter?

?Anti-interference Pure Sine Wave Inverter?The car inverter converter adopts pure sine wave technology,which has low interference,low noise and large load capacity,it is a voltage converterthat converts 12V /24V /48V /60V /72V DC into 110V/120V/220V/230V/240V AC. It can be used in emergencies,camping,cars,homes,RVs and solar energy.

Do I need a 60Hz inverter?

Here in the US,things run at 60Hz,in Europe and most other places around the world,things run at 50Hz. You'll most likely require a 60Hz inverter if you are running a device intended to run on US power. We like to go camping and travel quite frequently.

What is a 6V to 12V converter (inverter)?

The PGPI is a 6V to 12V converterfor vehicles that still have a 6V,positive ground electrical system. It is necessary if you are still running positive groundfor all of our radios,which run on a 12V,negative ground electrical system. The PGPI positive ground inverter comes with detailed wiring instructions.

Can a 12V 72V inverter be converted to each other?

A1: No,12V~72V cannot be converted to each other. You can only choose one of the input voltages,and the inverter input voltage must be consistent with the system input voltage. For example: a 72V inverter can only be used for a 72V battery.
