## A factory producing battery cabinets in South Africa

Who are the leading battery manufacturers in South Africa?

There are profiles of Eveready, Energizer, and Duracell, among other major battery manufacturing companies in South Africa.

Who makes a battery in Cape Town?

The second-largest battery assembly plant is owned Balancell, which recently upgraded its production facility in Cape Town to support up to 1GWh output per year. Balancell's biggest customer is Toyota Material Handling, while other well-known customers include Cape Fruit, Clicks, Nestle, Shoprite, Spar, and Pick n Pay.

Why are batteries not made in South Africa?

That is because there is no plant producing the cells that form the basic building blocks of batteries. These cells are made from raw minerals -- many of which are not mined or readily available in South Africa -- and are often exported from other African countries to China or the US.

What are omnipower stackable battery cabinets?

The OmniPower stackable battery cabinets are strong, locally-manufactured powder-coated steel units that ensure your battery bank is safely enclosed while adding great aesthetic appeal to your installation. Optional extras include professional safety fuse kits and castor wheels.
