
ASEAN solar Tile Brand

What is solar tile?

Solar tile, which combines solar panels and roof tiles, integrates photovoltaic and architecture. Crystal silicon photovoltaic technology and building tile structure are innovated to eliminate the complex project of secondary installation and replace traditional cement tiles and clay tiles with one-time paving.

What are solar roof tiles?

Like solar panels, solar roof tiles are designed to capture the energy from the sun that is shining on your roof and turn that energy into a usable power source for your home.

What are the different types of solar roofing?

All of the different types of solar roofing are known as building-integrated photovoltaics (BIPV). High performance Superior performance compared to similar BIPV products. Higher power generation per square foot compared to conventional solar modules. Seamlessly Integrated Design Serves the dual purpose of roof protection and power generation.

In a time of fragmentation, ASEAN stands out as a rare economic bright spot because it's leveraging global uncertainty into a strategic advantage.

With its headquarter located in Foshan Guangdong---the China Ceramic Capital, Eagle Brand Industrial is one of the most internationally renowned manufactures of modern building ceramics.
