
Aarhus power station generator in Denmark

Does the port of Aarhus have a shore power plant?

The Port of Aarhus has an onshore power plant on its way to container ships, which will be the first of its kind in Denmark. And a new agreement stipulates that it must be supplied by Danish PowerCon. We are pleased that we can once again collaborate with PowerCon to establish a shore power facility.

Is Aarhus a sustainable port?

The Port of Aarhus, Denmark's largest commercial port, has announced the finalization of an agreement to develop one of the most advanced shore power facilities in Europe. This initiative represents a significant step forward in reducing emissions and enhancing sustainable port operations in Northern Europe.

Is Aarhus a green port?

With the completion of the shore power facility in 2026, the Port of Aarhus will continue to set benchmarks in green port operations. This project underscores the port's mission to connect Denmark with the world while embracing sustainable solutions for a changing global economy.

When will Aarhus' shore power project be operational?

The facility is expected to be operational by 2026, furthering the port's efforts to become a leader in sustainable port operations. The shore power project is part of the "OPS Network," a collaborative initiative involving key Northern European ports, including Aarhus, Gothenburg, Bremerhaven, and Stockholm.
