
Arc flash switchgear in China in Guyana

What arc flash mitigation solutions are available?

Improve safety with our extensive portfolio of arc flash mitigation solutions including arc quenching and arc-resistant switchgear, Power Xpert XGIS switchgear, Power Xpert Dashboard, Power Defense molded case circuit breaker, Insulgard, arc flash relays and more.

What is afr-4 arc flash protection?

This AFR-4 arc flash protection solution is a decentralized, independent protection system. Each AFR-4 arc flash relay operates autonomously, with its tripping logic and relay outputs. If an arc-flash fault occurs in a zone, only the AFR-4 in that zone will immediately issue a trip command, opening the circuit breaker in its assigned zone.

Are pgr-8800 and afr-4 arc flash protection relays suitable?

To meet the requirement for comprehensive monitoring of 24 arc flash sensors across multiple switchgear panels, we have identified the PGR-8800 and AFR-4 arc flash protection relays as suitable solutions.

How does an afr-4 arc flash relay work?

Each AFR-4 arc flash relay operates autonomously, with its tripping logic and relay outputs. If an arc-flash fault occurs in a zone, only the AFR-4 in that zone will immediately issue a trip command, opening the circuit breaker in its assigned zone. It does not send a trip signal directly to the other 5 AFR-4 arc flash protective relays.
