[Photo by Guo Shining/For China Daily] China aims to build over 4.5 million 5G base stations next year and give more policy as well as financial support to foster industries that can define the next decade, the country's top industry regulator said on Friday.

What will China do in 2025?

More innovative policies will also be made to biomanufacturing, quantum technology, embodied intelligence and atomic-level manufacturing, it said. China plans to build 4.5 million 5G base stations and develop more future industries in 2025, said the Ministry of Industry and Information Technology at its working conference on Friday.

How many mobile operators in China are launching 5G & 5G-A?

Mobile operators in China are ramping up 5G and 5G-A rollouts, with the former now at 4.5 million cell sites and the latter in 300 cities.

How many 5G sites are there in China?

Mobile operators in China are ramping up 5G and 5G-A rollouts, with the former now at 4.5 million cell sites and the latter in 300 cities; a new 2027 roadmap will see 75% of mobile data in the country on 5G networks. 5G on 5M sites - China has over 4.486 million 5G sites; 5G now comprises more than 35% of total mobile base stations.

China will continue to accelerate the research, development, and innovation of 6G cellular technology and upgrade its 5G mobile network to reach 5G-A level in its new data ...

Supporting Future Industries and Emerging Technologies China's ambitious 5G base station plan for 2025 aims not only to enhance connectivity but also to foster a wave of ...

The global 5G base station construction market is expected to grow with a CAGR of 25.7% from 2025 to 2031. The 5G base station construction market in China is also ...

The 5G base station is the core device of the 5G network, providing wireless coverage and realizing wireless signal transmission between the wired ...

The 5G Base Station Construction Market Size was valued at 17.23 USD Billion in 2024. The 5G Base Station Construction Market is expected to grow from 20.57 USD

---

Billion in 2025 to 120.5 ...
