## Berlin rooftop solar system brands

What is solarzentrum Berlin?

To start tapping more into the potential of solar energy, both in the private and the public sector, the SolarZentrum (solar centre) Berlin was opened in May 2019. It is a component of the "Masterplan Solarcity", which works as an independent advisory centre on the topic of solar energy (SolarZentrum Berlin, only in German).

How many photovoltaic systems are there in Berlin?

Compared to solar thermal energy, there are far more photovoltaic systems registered in Berlin. As of July 7, 2023, 20,985 systems were in place, with a total installed capacity of around 230 MWp.

Is solar energy a building block for Berlin's climate protection strategy?

The expansion of solar energy use is emphasised as a particularly important building block in Berlin's climate protection strategy, since, with over 560,000 buildings in Berlin, there are rooftops and house facades aplenty, unlike suitable wind power sites.

Are solar panels mandatory in Berlin?

The set of measures stipulated in the master plan is accompanied by the Berlin solar law. Solar panels have been mandatory since January 1, 2023. The installation and operation of photovoltaic systems have been mandatory since then for new and existing buildings under certain conditions (SenK 2021).
