# Berne Solar Lighting System Installation

How do I plan a solar light installation?

Avoid shading from trees or nearby structures that can obstruct sunlight. Mapping out the installation locations will help you plan the layout and wiring of your solar lighting system. Before installing the solar lights, prepare the installation area.

What is a solar lighting system?

A solar lighting system refers to an eco-friendly lighting solution that harnesses power from sunlight through photovoltaic (PV) panels. It captures and converts sunlight into electricity, which is then stored in batteries for use when needed, such as during the night or on cloudy days.
