## Best wholesale rv circuit breaker Wholesaler

What is the cost to buy a new RV circuit breaker?

A new RV circuit breaker costs around \$10-\$15 depending on its type and current rating. Modern RVs come equipped with outlets to provide power outside the vehicle to run any appliance. However, it can trip if an appliance draws more power than the breaker's ratings.

Where can I find a circuit breaker for my RV?

Check out our line of RV circuit breakers and fuses from [RVpartscountry.com](http://RVpartscountry.com). Our circuits come in different amp sizes to fit your needs and get your electric up and running in your RV. Keep your breaker box working like a charm with our replacement circuit breakers.

Why do RV circuit breakers trip?

Circuit breakers prevent your RV's electrical system from becoming overloaded and therefore, causing fire and electric shock. In other words, they act as a failsafe: they interrupt the power in case of an electrical surge. This is the main reason why they trip.

What are the different types of circuit breakers?

The industry currently offers a wide range of single- and double-pole circuit breakers to choose from. The former are probably the most popular ones. They are built to monitor the current of a single wire. Obviously, double-pole ones monitor the current of two wires and interrupt it simultaneously.
