
Boston Backup Uninterruptible Power Supply

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) keeps your essential devices temporarily online, which provides a window for you to hit send on that last-minute email. While a standard power strip or surge protector offers sufficient, albeit basic, protection, a UPS ensures devices are properly shut down and are protected from data loss.

What is a backup battery power supply?

Backup battery power supply is designed for use during outages and unsafe voltage fluctuations, and provides surge protector with battery backup in the event of damaging power surges and spikes.

Are battery-backed uninterruptible power supplies reliable?

Reliability of power sources is an increasing challenge in many sectors and battery-backed uninterruptible power supplies (UPS) are one option to protect and keep electronic equipment operating in the event of grid power failure.

What is a good ups with a built-in backup battery?

A UPS with built-in backup batteries is essential for protecting your devices from power outages, surges, and other electrical disturbances. Whether you opt for the high-capacity APC Back-UPS Pro 1500VA or the compact and budget-friendly Vertiv Liebert PST5, each UPS on this list offers reliable protection and peace of mind.
