Can brusol install solar panels for free in Brussels?

Click here for the FAQ on solar panels Let Brusol install your solar panels for FREE in Brussels and enjoy 30 years of free solar energy without having to invest a single euro.

How do solar panels work in Belgium?

In Belgium there are two main types of solar panels. Solar Thermal Panels: these harness the sun's heat to produce hot water and heat homes. Equipped with sensors capturing up to 90% of sunlight, these panels transport heat to a water tank for storage, ensuring a continuous supply of hot water, even on overcast days.

Where can I buy solar panels in Brussels?

Several companies offer their services in Brussels, including EmaxSolar, known for its expertise and quality installations. Before purchasing and installing solar panels, it is important to request a solar panel quote.

Why should you install solar panels in Brussels?

The main advantage of installing solar panels in Brussels lies in the green certificate system. Each green certificate is equivalent to the avoidance of 217 kg of CO₂ emissions and can be sold to an energy provider or intermediary.
