
Cape Town with solar air conditioning

Why should you choose solar-powered air conditioning in Cape Town?

Solar-powered air conditioning reduces your carbon footprint. For eco-conscious Cape Town households and businesses, this is a strong motivator. A home or office equipped with solar and energy-efficient climate control is more attractive to buyers and tenants. Cape Town Airconditioning 4. Practical Challenges to Consider

Why do aircon & solar make a difference in Cape Town?

Here's why the combination of aircon + solar makes so much sense locally: Cape Town gets an average of 3,100 hours of sunshine per year-- one of the highest globally. This makes solar highly effective, especially for running aircons during summer's peak heat.

Is Cape Town a good place to run a solar system?

Cape Town gets an average of 3,100 hours of sunshine per year -- one of the highest globally. This makes solar highly effective, especially for running aircons during summer's peak heat. Eskom's annual tariff hikes are making it more expensive to run energy-intensive appliances.
