
China Communications 5g Base Station Procurement

How many 5G base stations are there in China?

With 4.19 million 5G base stations already operational across China, the MIIT emphasized that "promoting 5G revolution and 6G innovation will be one of the priorities" for 2025, according to a report by Chinese newspaper China Daily. Chinese main operators are China Mobile, China Telecom and China Unicom.

How many 5G base stations will China Mobile have in 2025?

China Mobile, the world's largest mobile carrier in terms of subscribers, had previously outlined plans to deploy 340,000 additional 5G base stations in 2025. With these new 5G deployments, China Mobile's total 5G base stations will reach nearly 2.8 million by the end of 2025.

Which companies have been awarded a 5G contract?

Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell. China Mobile plans to operate more than 1.6 million 5G base stations this year, increase its number of cloud servers by more than 240,000 units, and add 40,000 external data center racks.

Who won a 5G contract in China?

Huawei wasn't the only Chinese vendor to win a sizeable chunk of the tender, with ZTE the second-largest winner with around 26 percent of the contract, equivalent to 23,227 5G base stations. Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell.
