
Circuit breaker fuse for sale in Germany

What are fuses & circuit breakers?

Fuses and circuit breakers may also be installed in equipment such as your automobile to protect against internal faults. Figure 2-29 shows a variety of fuses and breakers. Fuses use a metallic element that melts when current exceeds a preset value. Thus, if a fuse is rated at 3 A, it will "blow" if more than 3 amps passes through it.

Where do Siba Fuses come from?

Whether from our parent plant in Germany or from our subsidiaries located elsewhere, SIBA fuses are supplied to the whole world. Our fuses are therefore certified according to many standards. We keep up the tension: With fuses for a lot of applications related to energy utilities.

Why are our fuses certified?

Our fuses are therefore certified according to many standards. We keep up the tension: With fuses for a lot of applications related to energy utilities. Optimum protection for mains and equipment: From machine tools and switchgears in the industry to the whole power grid of buildings and companies.

Do Siba fuses have a warranty?

But they usually have serious consequences. Counterfeit SIBA fuses appear time and again, especially in Asia. SIBA obviously assumes no warranty for these products. Any questions? Increased turnover, equipment protection production set up in Lünnon-Wethmar, now a larger site acquired - SIBA continues to grow and makes forward-looking decisions
