
Container generator work price

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

How much does it cost to ship a generator?

The cost to ship a generator can vary quite a bit, from a few hundred dollars for a small, residential standby generator, to thousands of dollars for a large industrial generator. Shipping costs are typically charged at a per-mile rate.

How much do Commercial Generators cost?

Prices for dependable commercial generators start at around \$8,000 - \$12,999. Don't forget to factor in maintenance and safety considerations when using a commercial generator. With the right generator, your business will be prepared for any future power outages.

Can you put a generator in a container?

Generators can be put into containers. There are a number of benefits to doing this including: Easier transportation and installation making them ideal for temporary or remote applications. They are more secure as typically they are lockable which prevents unauthorised access. Do I need to service my power system? Put simply, yes.
