
Energy storage equipment manufacturing in Gothenburg Sweden

How is Gothenburg shaping the new battery industry?

In Gothenburg we are shaping the new battery industry. In the coming years Gothenburg and West Sweden will have in place two battery gigafactories, with major investments being made by public and private actors, including Volvo Cars and the Volvo Group. The region is set to become an important hub for both battery development and production.

What is Sweden's largest energy storage investment?

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region.

What is Battery Centre Gothenburg?

It will be 100 percent powered by fossil-free energy and the aim is to supply batteries for approximately half a million electric cars per year. Nearby at Lindholmen, Battery Centre Gothenburg will open on 24 January. There, both industrial personnel and students will be trained and educated in battery technology and production.

What is the Swedish electromobility centre?

Together with industry partners it carries out leading research on, for example, battery materials, energy storage and battery manufacturing. It also hosts the Swedish Electromobility Centre, a national centre of excellence for hybrid and electric vehicle and charging technology.

14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region. Developer and optimiser Ingrid Capacity and ...

Construction of Volvo Cars and Northvolt's joint Li-on battery gigafactory in Gothenburg, Sweden, is now underway. Once complete, it will be among the largest in Europe, with over 3,000 ...

NOVO Energy, the joint venture between Northvolt and Volvo Cars, celebrated the start of construction for its highly anticipated battery factory in Torslanda, Gothenburg. Located ...

Sweden is recognized as one of the pioneering countries in sustainable and environmentally friendly technologies, including in the battery industry. With the growing global ...

This article delves into the top 10 energy storage companies in Sweden, which include key developers and investors who are delivering innovative solutions. This dynamic ...

We are a research and development organization specializing in advanced battery technologies, designing, developing and testing the batteries of the future for nearly 30 years.

SEEL Swedish Electric Transport Laboratory, Sweden's testbed for electromobility. Gothenburg is a hub for innovation and at the forefront of sustainable industry. Now a battery ...

Seven effects of West Sweden's new battery industry Together with industrial partners, it conducts leading research on, for example, battery materials, energy storage and battery ...

Detailed info and reviews on 7 top Energy Storage companies and startups in Sweden in 2025. Get the latest updates on their products, jobs, funding, investors, founders ...

Together with industry partners it carries out leading research on, for example, battery materials, energy storage and battery manufacturing. It also hosts the Swedish ...

Enequi is a Swedish manufacturer specializing in intelligent energy storage solutions, including their QuiPower system, which offers reliable and sustainable energy supply for both private ...

NOVO Energy, the joint venture between Northvolt and Volvo Cars, celebrated the start of construction for its highly anticipated battery ...

Volvo Cars and Vargas portfolio company Northvolt have selected Gothenburg, Sweden, to establish a new battery manufacturing plant. The plant will commence operations ...

Minesto is a marine energy technology developer, founded in 2007 as a spin-off from Swedish aerospace manufacturer Saab. Since then, Minesto has successfully developed its unique ...

At the time, Sweden's Minister of Climate and Environment, Romina Pourmokhtari, was responsible for overseeing the grid connection. In comments at the ceremony, ...

Discover how collaboration is fueling Gothenburg's thriving battery cluster, including advancements in hydrogen fuel cell tech and sustainable transport solutions.
