
European Scalable Distributor of Foldable Containers

Who makes Orbis reusable packaging?

As a wholly-owned subsidiary of Menasha Corporation, ORBIS has reusable packaging experience since 1849. At ORBIS, reducing CO2 emissions starts when manufacturing the foldable large containers as we use recycled material.

What makes Faltsysteme a successful reusable container company?

In 1978 WALTHER Faltsysteme folded the first reusable containers. Since then, our container specialists have been renowned as the experts in the foldable plastic box market. Our success is based on the right fold: whether lengthwise or crosswise, with a hinge or without. This is largely defined by our customers' requirements.

What is a foldable storage container?

Foldable storage containers are made of trapezoid sheet metal of 0,75 mm thickness, bearing sections of 2 mm thickness and wooden bottom of 35 mm thickness. A double-wing door 1390 x 1390 mm with a handle and a lock is placed in the front wall or a single/double door in the sidewall. The container is equipped with cradle attachments.

Why do we develop reusable containers for international logistics markets?

Individual solution instead of simple off-the-peg sales: This is the guiding principle behind our development of storage and transport containers for international logistics markets, helping us to come up with a comprehensive range for trade and industry. Our reusable containers are an ideal accessory for dynamic and efficient logistics.
