What is a circuit breaker system?

A circuit breaker system is more than just the breaker itself. It comprises several key components that work in unison to provide reliable and safe electrical protection, such as the enclosure, trip mechanisms, and terminals. The breaker itself houses the main contacts, which carry the current under normal conditions.

TAIXI mainly produces miniature circuit breakers, molded case circuit breakers, over-voltage protection, surge protector, modularization socket, electromagnetic leakage circuit breaker, ...
