
Financing for a 200kW Mobile Energy Storage Container Project in Europe

Are battery energy storage systems a viable pillar for decarbonization?

As the renewable energy sector rapidly evolves, battery energy storage systems (BESS) are emerging as a critical pillar for decarbonization. However, with capital constraints and rising market volatility, not all projects are equally viable.

Is energy storage a good investment in 2025?

Energy storage is one of Europe's fastest-growing asset classes. In today's market, funding follows preparedness. In 2025 and beyond, only projects that combine financial credibility, operational agility, grid-aligned design, and derisked structures will secure investor confidence and move to execution.

Are battery storage projects funded on a stand-alone basis?

KBRA has observed an important distinction in the funding tools for battery storage depending on whether batteries are being funded on a stand-alone basis or as part of a portfolio, versus those that are part of hybrid projects (utility-scale solar or wind combined with battery storage).

How many MW of battery storage contracts were awarded in February?

The UK's T-4 Capacity Market auction awarded 1,093MW of battery storage contracts in February. Around 60% of battery storage had a two-hour or longer duration, similar to the UK T-4 2024-25 results (storage duration is the amount of time storage can discharge at its power capacity before depleting its energy capacity).

The rapidly evolving landscape of utility-scale energy storage systems has reached a critical turning point, with costs plummeting by ...

EU Innovation Fund Focus is on innovative low-carbon technologies and processes in energy intensive industries with the objective of launching industrial solutions to decarbonise Europe ...

The total value of projects submitted exceeded PLN 70 billion, while the requested funding for energy storage facilities with a combined power output of more than 20 GW and an ...

CATL's energy storage systems provide energy storage and output management in power generation. The electrochemical technology and renewable energy power generation ...

The rise of bankable BESS projects in Europe As the renewable energy sector rapidly evolves, battery energy storage systems (BESS) are emerging as a critical pillar for ...

Our's Containerized Battery Energy Storage Systems (BESS) offer a streamlined, modular approach to energy storage. Packaged in ISO-certified containers, our Containerized BESS ...

In our view, there is a need for greater collaboration between sponsors developing the batteries, regulators and national policymakers setting renewable targets, and the ...

See The IRA at a Year and a Half: IRS Guidance and Impact on the Energy Storage Industry. While lenders may need to undertake additional diligence before financing an energy ...

This report provides the latest, real-world evidence on the cost of large, long-duration utility-scale Battery Energy Storage System (BESS) projects. Drawing on recent auction ...

EU Innovation Fund Focus is on innovative low-carbon technologies and processes in energy intensive industries with the objective of launching ...

As the renewable energy sector rapidly evolves, battery energy storage systems (BESS) are emerging as a critical pillar for decarbonization. However, with capital constraints ...

A total of 43 projects were selected from 79 applications in Portugal's energy storage procurement. This included six projects from Spain's Iberdrola, which secured nearly EUR 20 ...

A roundup of the biggest projects, financing and offtake deals in the energy storage sector that we have reported on this year. It's been a positive year for energy storage ...

Greenergy has raised financing for the fourth phase of a project in Chile set to feature 11GWh of battery storage capacity when completed.

Making project finance work for battery energy storage projects - Establishing a workable template to underpin sector growth - Lessons from one of Europe's largest BESS project financings ...

International energy consultancy Wood Mackenzie has released groundbreaking research showing Europe's battery energy storage system (BESS) market is experiencing ...
