# Georgetown solar Panel Plant

What is the Georgetown solar project?

The Georgetown Solar Project is a 278 MWdc solar photovoltaic project located in Vulcan County, Alberta, Canada. The project has completed all field work, obtained Power Plant and Permit & License approvals by the AUC for the construction, operation, and interconnection of the project to the Alberta Interconnected Electric System.

How many homes will the Georgetown solar project power?

Once operational, the Georgetown Project is expected to generate enough electricity to power approximately 42,550 homes. The Georgetown Solar Project is a 278 MWp solar photovoltaic project located in Vulcan County, Alberta, Canada.

Who owns Georgetown solar PV Park?

The project is being developed by Georgetown Solar and is currently owned by Metka EGN with a stake of 100%. Georgetown Solar PV Park is a ground-mounted solar project which is planned over 710 acres. The project is expected to supply enough clean energy to power 30,000 households. The project construction is expected to commence from 2024.

Where is Georgetown solar located?

Georgetown Solar Inc. is developing a 230-megawatt (MWac) solar project located 11 kilometres south of Carseland, Alberta in Vulcan County. The Project encompasses 700 acres (400 soccer fields) and has been sited on privately owned cultivated farmland.

Georgetown County in South Carolina is seeing a significant expansion in its solar energy capabilities with the ongoing development of the Lambert Solar Farm. The latest ...

The Georgetown Solar Project is a 278 MWdc solar photovoltaic project located in Vulcan County, Alberta, Canada. The project has completed all field work, obtained Power ...

With Georgetown, Westbridge takes a major step forward. Indeed, the launch of the project confirms the company as a leading solar developer. In addition, the company is ...

Application Georgetown Solar Inc. ("Georgetown") filed applications with the AUC for permission to construct and operate the 230-megawatt Georgetown Solar Power Plant, a ...

---

Westbridge Energy Corporation is developing the Georgetown Solar Project under the name Georgetown Solar Inc. The 230 mega-watt solar plus battery storage project is being ...

Westbridge secures CAD\$4,830,000 financing for Georgetown Solar PV and battery energy storage project. Westbridge Renewable Energy Corporation (TSXV: WEB) ...

- The plant will generate approximately 15 million kilowatt-hours of clean energy annually. Toyota Kentucky in Georgetown is the largest Toyota manufacturing facility in the world. A new solar ...

The Georgetown Project marks the first of four Alberta projects of Westbridge to receive power plant and BESS approval from the AUC. The approvals allow Georgetown to ...

Georgetown Solar PV Park is a 278MW solar PV power project. It is planned in Alberta, Canada. According to GlobalData, who tracks and profiles over 170,000 power plants ...
