How do government subsidies affect the PV industry?

However, lucrative government subsidies often lead to PV enterprises not paying attention to technological innovation and blind production. Therefore, to improve the efficiency of government subsidies, enhance the overall performance of the PV supply chain, and achieve the healthy and long-term development of the PV industry.

Should government subsidies support PV supply chain companies?

When supported by government subsidies, the government should give full consideration to the power structure of the PV supply chain companies, and the relationship of equal status of supply chain companies is most conducive to the government's implementation of PV subsidies.

Should solar systems be reported in Kilowatt-hours (kWh)?

Requiring all respondents to report system performance in terms of kilowatt-hours (kWh) of electricity generated annually over the system's lifetime or in the number of kilowatts (kW) of installed solar capacity will make the local government's review of these proposals much more efficient.
