
Helsinki Air Energy Storage Power Station

The energy storage facility delivered by Merus Power to Lappeenranta, Finland, has been completed and put into market use on 15 May 2025. The energy storage facility is ...

Hitachi Energy's battery storage power conversion solutions are aimed to maximise system performance and strengthen the stability of Finland's grid. The scope of supply ...

Photovoltaic energy storage box substation Photovoltaic energy storage unit substation is a kind of power equipment designed for photovoltaic power generation system, which combines ...

This study reviews the status and prospects for energy storage activities in Finland. The adequacy of the reserve market products and balancing capacity in the Finnish energy system are also ...

Helsinki is the capital of Finland. It is located in southern Finland on the shore of the Gulf of Finland. Helsinki is an important hub of business and culture. The population of ...

In the morning of April 30th at 11:18, the world's first 300MW/1800MWh advanced compressed air energy storage (CAES) national demonstration ...

Helsinki is a charming seaside city with a unique twist. Located on the shore of the Gulf of Finland, Helsinki is a place where urban culture meets coastal nature. The easy-going Nordic lifestyle ...

Helen Ltd and Evli Fund Management Company Ltd's renewable energy fund, Evli Renewable Energy Infrastructure Fund II, have completed a major electricity storage project in ...

Global energy storage capacity is expected to grow sixfold by 2030 (IEA), and commitments made at COP29 underscore the critical role of storage and grid infrastructure in ...

Merus Power had the pleasure of welcoming Fingrid's CEO Asta Sihvonon-Punkka and Senior Vice President Jussi Jyrinsalo, to Lempäälä, where they visited one of the largest ...

Hitachi Energy partners with NEPower to supply advanced power conversion technology for Finland's largest 125 MW / 250 MWh BESS.

Hitachi Energy has signed a contract with Nordic Electro Power (NEPower) to provide advanced power conversion solutions for Finland's largest battery energy storage ...

Why Energy Storage Stations Are the New Rock Stars of Clean Energy Let's face it - if renewable energy were a rock band, energy storage power stations would be the ...

Sunny Side Up: Helsinki's Energy Game-Changer Let's cut to the chase - Helsinki's photovoltaic storage project isn't your grandma's solar panel setup. Imagine a Tesla ...

Hitachi Energy delivers power conversion technology for Finland's largest battery storage project, boosting grid stability & energy infrastructure.

Enter energy storage power stations - the unsung heroes of modern electricity grids. These technological marvels act like giant "power banks" for cities, storing excess ...
