
High quality solar power unit in Angola

Where is a 35 MW solar project being built in Angola?

Construction is underway of a 35 MW solar project in Angola. The Quilemba photovoltaic power plant, first announced in October 2021, will be located near Lubangoin the south of the country. It is being built by Angolan company Quilemba Solar Lda, a joint venture between TotalEnergies (51%), Sonangol (30%) and Maurel & Prom (19%).

What is Angola's largest solar power plant?

A groundbreaking ceremony for the project, which is billed as the largest privately-owned solar power plant in Angola, took place earlier this month. Angola's cumulative solar capacity stood at 362 MW at the end of last year, up from 310 MW at the end of the year prior, according to figures from the International Renewable Energy Agency (IRENA).

How much solar power does Angola have?

Angola's cumulative solar capacity stood at 362 MW at the end of last year, up from 310 MW at the end of the year prior, according to figures from the International Renewable Energy Agency (IRENA). Last May, a 25.3 MW project was inaugurated in eastern Angola, as part of wider plans to deploy a total 370 MW across the country.

Who produces electricity in Angola?

Electricity is produced by Empresa Nacional de Electricidade de Angola. Angola ranks second in crude oil production in sub-Saharan Africa, after Nigeria. In 2022, the country produced an average of 1.165 million barrels of oil per day, according to its National Oil, Gas and Biofuel's Agency (ANPG).

Choose Solar Power Solutions Pvt. Ltd as your preferred solar partner in Angola, and experience the benefits of clean, renewable energy. Contact us today to explore how solar power can ...
