# How many companies are there in Papua New Guinea s energy storage power station

Who regulates the electricity industry in PNG?

The electricity industry and power pricing is currently regulated by the Independent Consumer and Competition Commission (ICCC). PNG's National Energy Policy anticipates the eventual establishment of separate Energy Regulatory Commission. With the advent of the PNG LNG project in 2014, PNG began exporting LNG.

How many renewables will Papua New Guinea have in 2027?

The fourth MTDP set the target of 57% of renewables in the on-grid power capacity mix in 2027. In 2022, this share reached 30% (36% in the power generation mix). The Papua New Guinea Climate Change (Management) Act 2015 established the Climate Change Development Authority and the Climate Change and Green Growth Trust Fund.

How is PNG Power regulated?

PNG Power was established under the Electricity Commission (Privatisation) Act of 2002. It is regulated under the Electricity (Amendment) Act. PNG Power's revenues are insufficient to fund the planned expansion of the country's energy infrastructure.

Does Papua New Guinea have biomass?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Papua New Guinea: How much of the country's electricity comes from nuclear power?
