# How much does a 40-foot solar-powered container cost at an Australian airport

What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects--all while reducing carbon footprint and cutting energy costs.

How much does a 40 foot container cost in Australia?

A 40 foot container will cost at least around \$700 more. Rates will vary depending on the country. Much like Asia, Australia largely imports electrical machinery, mineral fuels, vehicles, medical supplies and additional pharmaceuticals, precious metals, and home goods. Their biggest exports are iron ores, coal, gold, and beef.

What are the advantages of a container roof solar system?

1. Integrated Solar Array High-efficiency solar panels installed on the container roof or fold-out frames. 2. Battery Energy Storage Lithium-ion or deep-cycle batteries store energy for use day or night. 3. Inverter & Control Systems Converts solar power to usable electricity with smart monitoring. 4. Weatherproof & Secure
