# How much does it cost to replace the battery at a new energy station

How much does a battery replacement cost?

For instance, battery replacement in a Prius costs about \$2,300 - \$2,600, while in Tesla, it could cost tens of thousands. Since EV adoption just took root around 2017, it's still rare to hear of battery replacements in 2025. As such, there isn't much information out there about the costs of replacement.

How much does electric car battery replacement cost?

Electric car battery replacement costs outside of warranty typically range from \$5,000 to \$16,000, depending on the pack size and manufacturer, but these out-of-pocket repairs are extremely rare. If you buy a new EV, you will probably never have to think about battery replacement or even battery maintenance.

Why are EV battery replacement costs so high?

Sourcing a replacement EV battery from anyone but your car's manufacturer is nearly impossible, which is the main reason replacement costs are so high. EV battery repair is a growing industry that may help you avoid the high cost of a replacement, but it's not commonly available yet. What is an EV battery?

Are EV battery replacement costs high in 2025?

While EV battery replacement cost is high in 2025, research from Recurrent Autos indicate that drivers have less to worry about their batteries failing. Only two major recalls have taken place, both related to the same battery pack issues found in the Chevrolet Bolt EV.
