
How to turn on the power of the solar charging solar energy storage cabinet

How do you use a solar charger?

Plug the solar charger into the socket. If it doesn't fit, you need to purchase an appropriate adapter to get the connection right. If the cigarette port doesn't power up unless the vehicle is on, turn the ignition to the accessory setting. Let the solar charger fill up for a minimum of six hours before you unplug it.

What is a SolarEdge home battery?

Your SolarEdge Home Battery helps you optimize your energy usage by using stored solar energy when electricity rates are high, and in the event of a power interruption.

Does the SolarEdge home battery automatically switch to backup?

The SolarEdge Home Battery is designed to automatically switch to backup during an outage for partial or full home backup - depending on your system design, size, battery configuration, and other settings.
