# Huawei Kuwait solar System

How much solar energy does Kuwait use a day?

This situation is likely to lead to growth in the use of solar energy in the future. Kuwait's average solar intake is about 9-11 hours per day, with an average daily solar insolation that can reach more than 7.0 kWh/m<sup>2</sup>/day. The solar PV installation cost dropped significantly from USD 4,731 per kilowatt to USD 883 per kilowatt in 2021.

Is Kuwait a good place to invest in solar energy?

Kuwait is in a great spot and has plenty of cash, but the country hasn't seen a surge in solar energy projects due to a lack of official support. As a result, this could dampen the market's expansion over the predicted time frame. The Kuwaiti solar energy market is partially consolidated.

Will Kuwait develop 2 GW solar and wind projects in 2022?

February 2022: Kuwait announced that it planned to develop a 2 GW solar and wind projects, which the Kuwait Authority will tender for Partnership Projects. 1.

## INTRODUCTION

When will Subiya water storage solar PV plant be built?

As of February 2022, a 30 MW solar PV plant was planned in Al Jahra, Kuwait, and is named the Subiya Water Storage Solar PV Plant. The plant is expected to be built in one step. Construction is expected to start in 2023, and the plant should be ready for business in 2025.
