## Huawei Madrid solar Panels

Where can I install solar panels in Spain?

For 8 years, we have been providing solar panels and kits and their installation throughout Spain, including Madrid, Barcelona, Valencia and other provinces. We take care of all the paperwork and approvals required for solar installations. Contact us today for a free calculation or project for your solar system.

Does Spain have solar power?

We also take into account your location in Spain, as this affects the amount and quality of solar radiation. Spain enjoys an average of 2,940 hours of sunshine per year, which is higher than the European average of 1,700 hours. This means that Spain has more potential to generate solar power and save on electricity bills.

Which latitude is best for solar panels in Spain?

Spain lies between 36° and 43° north latitude. This affects the efficiency of solar panels. The closer to the equator, the more solar energy there is. That's why we adjust the tilt and orientation of the panels to suit the location.

What is the warranty on solar panels?

LG: 25 year warranty, 90.08% performance guarantee. Huawei: 12 year warranty, 80% performance guarantee. Solax: 10 year product warranty, 80% power guarantee. JA Solar: 12 year warranty, 83% power output guarantee. Kits and components for the assembly of your solar station: solar panels, inverters, batteries, structures.
