
Is there a solar glass factory in Kyiv

Will Ukraine build a float glass factory in Kyiv by 2028?

Ukraine is set to build a float glass manufacturing plant in the Kyiv region by 2028. The NovaSklo project aims to construct a large-scale float glass facility in Ukraine. The initiative aims to reduce Ukraine's dependence on imports and attract investment into the country's industrial development, even amid the ongoing war.

Why is glass manufacturing important in Ukraine?

Glass manufacturing is a critical sector within the processing industry, playing a strategic role in construction, industrial production, and the country's post-war recovery. The construction of this plant will create new jobs and attract additional investment into Ukraine's industrial sector.

How will novasklo impact Ukraine's glass industry?

Currently, Ukraine is entirely dependent on imported glass. NovaSklo will reduce reliance on foreign suppliers, making the domestic market more resilient and competitive," emphasized Olga Batova, CEO of investment company EFI Group.

How much glass does Ukraine use a year?

Before Russia's full-scale invasion, Ukraine consumed 32 million m³ of glass annually. By 2023, this figure had dropped to 19.6 million m³. NovaSklo's first production line will have an annual capacity of 25 million m³; -- less than pre-war demand.

Ukraine's first floating glass plant in Kyiv region will create jobs, attract investment, and support the Made in Ukraine policy with modern technologies.

Jiangsu Chung Glass Co., Ltd is a professional OEM/ODM glass manufacturers and glass deep processing factory, We specialize in custom glass, involving photovoltaic solar cell glass, new ...

The aim of the partnership is to create Ukraine's first world-class float glass production plant. The plant is planned to be built by 2028 in the Kyiv region. It will have a ...
