
Kampala Rechargeable Battery Cabinet Installation Company

What are solar batteries in Uganda?

Solar batteries in Uganda are an essential component of a solar energy system, allowing the storage of excess solar energy generated during the day for use during periods of low or no sunlight. In Uganda, solar batteries are becoming increasingly popular as the country looks to expand its use of renewable energy sources.

Are gel-sealed solar batteries a good option in Uganda?

Safety and efficiency: Gel-sealed batteries have improved safety features such as spill-proof construction and a lower chance of acid leaks or gassing. They also provide efficient performance, with high charge acceptance and low self-discharge rates. Given these considerations, gel-sealed batteries are the best solar battery option in Uganda.

Who owns UBL batteries?

UBL was established in 1967 by Dr. James Mulwanain partnership with Chloride (UK) Limited and in 1990, he gained full ownership of the company. We offer Lead Acid/Powdered Automotive Batteries in a wide range of varying capacities from as low as 36AH to a high of 200AH all designed to cater for the varying needs of our clients.
