
Kingston Foldable Containers for Port Use

Could a seafold 40" container slash the cost of repositioning empty containers?

More than a fifth of containers are returned empty to their port of origin empty, according to estimates. CCS claims that the SeaFold 40" box could potentially slash the cost of repositioning empty containers by 56%, save storage space by 80%, and drive down carbon emissions by 70%.

How many seafold containers are empty?

The SeaFold container opened out and stacked Credit: Compact Container Systems
More than a fifth of containers are returned empty to their port of origin empty, according to estimates.

What is a foldable cargo container?

A foldable cargo container looks like a traditional container, but it offers the opportunity of saving space when it's not being used. This type of container can be folded vertically and horizontally with the port's standard machinery and, of course, handled with container spreaders. Why do we need to save space in shipping cargo?
