
Kosovo New Energy solar Power Generation solar Site

Why is the EIB funding a solar plant in Kosovo?

The EIB is providing EUR33 million for the construction of one of Kosovo's largest solar photovoltaic plants. The new plant will contribute to higher energy security and the phasing out of coal-based power generation.

How can Kosovo improve its energy sector?

The Government of Kosovo aims to put its energy sector on a sustainable path, through developing renewable energy potential, improving energy efficiency, closing a 50-year-old power plant, and rehabilitating another old power plant.

What is the New Kosovo power plant?

The New Kosovo power plant is part of the government's plans to reform Kosovo's energy sector. Other plans include closing Kosovo A power station by 2017, rehabilitating Kosovo B power station to meet EU standards, and privatizing the country's electricity distribution system. Plans for New Kosovo also include a lignite coal mine, the Sibovc SW.

Why is Kosovo building a photovoltaic plant?

Kosovo's Minister of Finance, Labour and Transfers Hekuran Murati said: "The signing of today's agreement for the construction of the photovoltaic plant is a landmark moment as Kosovo advances its initiatives to secure renewable energy use for its citizens."

Discover Solar4Kosovo, a new 100 MW solar power plant funded by the EU to help Kosovo transition from coal to renewable energy and meet its 2031 goals.

To support the green transition in Kosovo*, the European Investment Bank (EIB) has signed a EUR33 million investment loan for the construction of one of its largest solar photovoltaic plants near ...

The European Investment Bank (EIB) has signed a EUR33 million investment loan to construct one of its largest solar photovoltaic plants near Pristina. This plant, with a capacity of ...

By increasing the share and capacity of solar energy in power generation, the project will contribute to energy supply security, a faster green transition ...

Lignite exploitation in Kosovo started in 1922. New mines were opened to satisfy the needs by increasing generation capacities. Kosovo Energetic Corporation (KEK) is a

public company, ...

Kosovo's diverse landscape offers significant potential for renewable energy development through hydropower, wind, and solar power. The country aims to enhance ...

Kosovo is building a groundbreaking 150 megawatt (MW) solar farm to reduce its dependence on coal and promote renewable energy, with the support of international and local ...

By increasing the share and capacity of solar energy in power generation, the project will contribute to energy supply security, a faster green transition and economic growth in the ...

With a favorable geographical position and many sunny days, Kosovo has the potential to become a leader in using renewable energy in the region. The measures recently ...

In light of the EU's long term decarbonisation goals, and considering that coal and lignite fired electricity generation will no longer be financially viable once Kosovo joins the EU, ...

Renewables plus battery storage: The launch last year of Kosovo's first large-scale wind and solar power projects revealed the first performance data for such projects. The ...

To support the green transition in Kosovo*, the European Investment Bank (EIB) has signed a EUR33 million investment loan for the construction one of its largest solar ...

YILDIRIM Energy, the energy subsidiary of the Türkiye-based YILDIRIM Group, has announced its expansion into the Kosovo market, focusing on renewable energy, ...

As per the most recent data, Kosovo's solar PV installations have reached a total capacity of 10 MW in capacity, of which 7.54 MW are generated through a prosumer scheme within the ...

After four years of planning, a former coal ash dump is about to be turned into the biggest solar power plant in Kosovo*. KEK is running the Solar4Kosovo 1 project at a site near ...

Maximise annual solar PV output in Gjakova, Kosovo, by tilting solar panels 36degrees South. Gjakova, Kosovo presents a moderately favorable location for year-round ...
