## Latest energy storage facility planning scheme

What is the implementation plan for the development of new energy storage?

In January 2022, the National Development and Reform Commission and the National Energy Administration jointly issued the Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period, emphasizing the fundamental role of new energy storage technologies in a new power system.

What is the "Special Action Plan" for new energy storage?

The 'Special action plan for large-scale construction of new energy storage (2025-2027)' was published last Friday (12 September), formulated jointly by the country's National Development and Reform Commission and National Energy Administration (NEA).

Will China develop new energy storage systems between 2025 and 2027?

BEIJING, Sept. 12 -- China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027, amid efforts to support green energy transition and ensure the stability of new-type power systems.

What is China's Energy Storage plan?

The plan's target represents a significant scaling up, even for the world's leading adopter and producer of energy storage technologies. According to official National Energy Administration data from its recent 'China new energy storage development report 2025,' the country's installed base at the end of 2024 totalled 73.8GW/168GWh.

Foreword Stepping up efforts to develop new energy storage technologies is critical in driving renewable energy adoption, achieving China's 30/60 carbon goals, and ...

Aura Power has been granted planning permission by Selby District Council for a battery storage system at Drax at Committee on Wednesday 11th May.

China aims to add more than 100 GW of new energy storage (primarily battery storage, excluding pumped hydro) by 2027, according to a new action plan presented by ...

The China New Energy Storage Development Report 2025 represents a major milestone in the institutionalization of NES planning and governance in China. By quantifying ...

The Ministry of the Environment of Spain has launched its latest financial support scheme for energy storage, aiming to kickstart 2.5 ...

---

Executive Summary This Planning, Design and Access Statement has been prepared by Savills on behalf of Bramford Power Ltd, in respect to a proposed ...

On Feb. 10, 2025, China's Ministry of Industry and Information Technology and other seven central government departments jointly announced an action plan for sound development of ...

Fidra Energy, a European battery energy storage system (BESS) platform headquartered in Edinburgh, UK, has secured planning consent to build and operate its ...

Crisafulli Government delivers consistent and transparent assessment for battery energy storage systems through new planning rules. Rules will ensure communities have ...

To reduce the waste of renewable energy and increase the use of renewable energy, this paper proposes a provincial-city-county spatial scale energy storage configuration ...

The document outlines a clear and comprehensive development plan for the energy storage market across five dimensions: application scenarios, dispatchability, technological innovation, ...

China has published plan to promote large-scale energy storage facilities, encouraging investment and electricity market participation.

China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027, amid efforts to support green energy transition and ...

Up until 12 December 2025, all stand-alone battery storage facility projects in Queensland were assessed by each relevant local government under that local government's ...
