
London Solar Home Storage

What is solar & storage Live London?

Solar & Storage Live London showcases global solar and energy storage solutions alongside complementary products and services for residential, commercial, industrial and large-scale utility projects.

Is home energy storage worth it in the UK?

Home energy storage allows UK homeowners to store electricity from solar panels, wind turbines, or the grid for later use. With electricity prices rising and time-of-use tariffs becoming more common, battery storage can help you cut bills, reduce reliance on the grid, and keep the lights on during power cuts. But is it really worth it in the UK?

Why should you use solar energy storage?

Energy storage changes the rules - you can use the green, cheap energy you want, when you want it. Lower your bills, use greener energy, and be part of the solution to climate change with your solar power energy storage system.

When is solar & storage Live London 2026?

The April edition, Solar & Storage Live London, launched in 2024 and was an overwhelming success. Returning for its third year in 2026, the show is set to grow even bigger, featuring over 200 global exhibitors and 200 speakers. More than 10,000 industry professionals are expected to attend over the two days.
