# Madrid Energy Storage and solar Storage New Energy Technology Company

Will Madrid become a central base for energy storage systems?

"Our strategy is very clear: to turn Madrid into our central base for energy storage systems. From there, we'll provide agile and specialized support to clients across Europe and Latin America," Gattoni explained.

What is energy storage in Spain?

It targets large-scale energy storage projects in Spain. It focuses on technologies like standalone battery energy storage systems (BESS), pumped hydro energy storage (PHES), and thermal energy storage. The program supports hybrid projects, which combine storage with renewable energy, such as solar or wind farms.

When is energy storage in Madrid 2024?

So join us in Madrid on the 24th of October 2024. The combination of favorable policies, technological advancement, and substantial market potential signals a prime opportunity to lead in the energy storage space. Capitalize on this moment to not only drive your company's growth but also to solidify its role in a sustainable future

Why should Spain invest in energy storage?

Investing in energy storage helps Spain meet its climate goals. This includes achieving carbon neutrality by 2050. Storing renewable energy instead of wasting it helps the country rely less on fossil fuels. This also cuts down greenhouse gas emissions. Pumped hydro, thermal storage, and battery systems are effective technologies.

This new funding builds on earlier support under Spain's Recovery, Transformation and Resilience Plan (PRTR), which has already mobilized EUR730 million for 4.5 GW of storage ...
