## Madrid Folding Container Two-Way Charging

Which car-sharing companies are partnering with ample in Madrid?

An important partner for Ample in Madrid is the automotive group Stellantis. Its car-sharing service Free2Move is initially deploying 40 Fiat 500e vehicles in the city, which have been specially converted to use Ample's battery exchange system. The fleet is set to grow to 100 vehicles by mid-2025, i.e. in a short period of time.

Is battery swapping a key enabler for EVs in Spain?

The Spanish government has identified battery swapping as a key enabler in its strategy to reach 5.5 million EVs on Spanish roads by 2030 and reduce emissions by 65% in urban centres. Madrid currently leads the country in EV registrations and is accelerating infrastructure projects to meet its climate targets.
