Does Bay Power sell American circuit breakers?

Bay Power carries a wide range of new, used & reconditioned American circuit breakers to keep you covered. An American circuit breaker is built to last and suitable for various applications, including residential, commercial, and industrial uses.

What does a circuit breaker do?

Circuit breakers perform 3 key functions: protection, switching, and monitoring. Circuit breakers are designed to "break" (discontinue) the flow of electricity to protect people and equipment when current reaches an unsafe level due to overload, short circuit, or other electrical faults.

What is a Powerpact circuit breaker?

A flexible, high-performance offer, certified to global standards from 100 to 1200 A. The PowerPacT M-frame, P-frame, and R-frame circuit breakers are designed to protect electrical systems from damage caused by overloads and short circuits. These breakers are available with Micrologic electronic trip units. Also available in I-line construction.
