
Myanmar Uninterruptible Power Supply Plant

Who is Myanmar Power Group Company Limited (mpg)?

Myanmar Power Group Company Limited (MPG) is a Power Solution Provider, especially in Uninterruptible Power Supply (UPS) industry since November 2017. MPG was founded on basis of experienced engineers whose experience in UPS field is over decade to be able to support the best pre-sales and after-sales support to our valued customers.

How is power supply infrastructure improved in Myanmar?

Efficiency and reliability of power supply and energy access is improved through the reinforcement and improvement of power supply infrastructure in Myanmar. Capacity for engineers and technicians engaged in T&D system is strengthened.

Does Myanmar have a power supply gap?

Myanmar's power sector will likely continue to experience significant challenges. To sustain the current level of power supply would require adding 300-500 MW every year until 2030. Scenario analysis on the power supply-demand gap illustrates that available generating capacity is projected to not meet the growing demand.

What is happening in Myanmar's power sector?

Myanmar's power sector has been severely affected by the ongoing political turmoil. The power sector has been spiralling downwards since 2021 with prolonged electricity blackouts throughout the country. Electricity generation has been declining, resulting in a widening power supply-demand gap.
