
New Energy Storage Power Station Project in Sydney Australia

Where will Ausgrid's battery energy storage systems be located?

New South Wales electricity distributor Ausgrid is proposing two,200 MW /400 MWh battery energy storage systems to be located in the north coast regional city of Newcastle,and Sydney suburb of Homebush.

Is Ausgrid proposing a battery energy storage system?

Sydney-headquartered distribution network service provider (DNSP) Ausgrid is proposing two,battery energy storage systems (BESS),both in Newcastle and Sydney,New South Wales (NSW),both well in excess of \$30 million (USD 19.7 million) given their state significant development (SSD) classification.

Will Ausgrid build a grid-scale battery system in NSW?

Electricity distributor Ausgrid plans to build \$423 million worth of grid-scale battery systems across two NSW sites,capable of powering 54,000 homes. The state significant developments--both on public exhibition--propose installations at Homebush in Sydney's inner west and Mayfield West in the Hunter region.

What is the Liddell battery energy storage system (BESS) project?

The Liddell Battery Energy Storage System (BESS) Project is being built at AGL Energy's (AGL) Hunter Energy Hub in New South Wales (NSW). The project infrastructure will include approximately 900 pre-assembled battery enclosures. (Credit: Z22/Wikipedia)
