# New solar panels in Southern Europe

How big is the Europe solar PV market?

The Europe solar PV market size crossed USD 63.1 billion in 2024 and is set to register at a CAGR of 7.1% from 2025 to 2034, due to the growing focus on green energy and net zero initiatives.

How will Europe's solar market evolve in 2025?

The European solar market continues exponential growth: Emerging technologies gaining market share: The companies leading Europe's solar transformation in 2025 share common traits: technological excellence, project execution capabilities, and adaptive business models.

Who are the top 5 solar companies in Europe?

The top 5 players in the industry include LONGi, Trina Solar, Jinko Solar, First Solar and Risen. The European solar market includes a mix of global players and strong regional companies. The leading firms range from solar module manufacturers to project developers, EPC contractors, and operators of solar assets.

Does the EU solar sector continue to grow?

The EU solar sector continues its upward trajectory, with mid-2025 figures confirming robust growth. SolarPower Europe's latest analysis highlights record installations, policy momentum, and the technology's central role in the continent's clean energy transition.
