
Number of 5G base stations of Paraguayan telecommunications operators

Will Claro & nubicom get 5G in Paraguay?

Claro and Nubicom win spectrum - Both companies secured 200 MHz each in Paraguay's 3.5 GHz band, with 5G rollouts expected in early 2026. New entrant faces challenges - Nubicom, an Argentine ISP without mobile infrastructure, must establish operations and build a network from the ground up.

Is a 5G spectrum auction a success in Paraguay?

The U.S. Embassy in Paraguay has welcomed the country's recent 5G spectrum auction, calling it a success despite limited participation and criticism over its restrictive terms. The U.S. mission praised the process for aligning with Washington's stance on banning Chinese technology from critical telecom infrastructure.

How many MHz does nubicom have in Paraguay?

Paraguay's National Telecommunications Commission (Conatel) confirmed that Claro and Argentina's Nubicom will each receive 200 MHz in the 3.5 GHz band after submitting the only bids in the country's 5G auction. Claro will operate in the 3.5-3.7 GHz range, while Nubicom secured 3.3-3.5 GHz. Both allocations are split into four 50 MHz sub-bands.

How many 5G base stations are there in China?

In data collected between July 2022 and June 2024, China was reported to have had around 3.5 million 5G base stations installed across the country, with Chinese mobile operators investing heavily in 5G infrastructure. By comparison, the European Union had around 460,000 thousand base stations, while the United States had approximately 175,000.
