# Outdoor power station factory in Tunisia

Who produces electricity in Tunisia?

State power utility company STEG controls 92.1% of the country's installed power production capacity and produces 83.5% of the electricity. The remainder is imported from Algeria and Libya as well as produced by Tunisia's only independent power producer (IPP) Carthage Power Company(CPC),a 471-MW combined-cycle power plant.

What are Tunisia's energy projects?

One third of the projects will be for wind farms and two thirds for solar photovoltaics. Tunisia's national grid is connected to those of Algeria and Libya which together helped supply about 12% of Tunisia's power consumption in the first half of 2023.

Will the got build a power plant in Tunisia in 2024?

In 2024, the GOT is also expected to launch a tender for the construction of at least one 470-550 MW combined-cycle power plant in Skhira (south Tunisia) as an IPP. In May 2018, the Ministry of Energy and Mines published a call for private projects to build renewable power plants with a total capacity of 1,000 MW (500 MW wind and 500 MW solar).

Does Tunisia have a power grid?

Tunisia's national grid is connected to those of Algeria and Libyawhich together helped supply about 12% of Tunisia's power consumption in the first half of 2023. Moreover,in August 2023,Tunisia's sub-sea connection project with Italy,called ELMED,was approved for \$337 million funding from the European Commission.

TUNIS, May 9 (Xinhua) -- Chinese companies on Wednesday broke ground on a 100-megawatt photovoltaic power station in central Tunisia's Kairouan Province, the largest photovoltaic ...

La Tunisie inaugure sa premièr#232;re centrale solaire photovolta#239;que de 100 m#233;gawatts #224; Metbassta-Sbikha dans le gouvernorat de Kairouan, projet phare d'un programme national ...
