
Pakistan Outdoor Power Solar

Why did Pakistan adopt solar power?

Photo by Hexzain /Shutterstock. Solar adoption in Pakistan resulted from a "perfect storm" of supply and demand. On the demand side,an unprecedented hike in electricity tariffs -- up 155% in just three years -- rendered grid power unaffordable for many people and businesses.

How much does solar cost in Pakistan?

This became apparent last year, when solar imports to Pakistan more than tripled from just one year earlier, approaching \$2.1 billion, according to data from Renewables First, an energy and environment think tank in Islamabad.

Where can solar panels be seen in Islamabad?

Solar panels can be seen on the rooftops of housesin Islamabad. Pakistan is in the midst of a solar boom that has rapidly turned the country into one of the world"s largest new adopters of this renewable energy source,according to data from the global energy think tank Ember.

How will solar power affect rural Pakistan?

Estimates by experts suggest that half of the tube wells will switch to solar power,adding 5.6 GW to 7.5 GW of distributed PV capacity -- equivalent to 1 million U.S. residential rooftop solar systems. This shift has not only restructured energy in rural Pakistan but also reduced dependence on costly imported diesel.
