
Palau Folding Container Long-life for Field Operations

What makes Faltsysteme a successful reusable container company?

In 1978 WALTHER Faltsysteme folded the first reusable containers. Since then, our container specialists have been renowned as the experts in the foldable plastic box market. Our success is based on the right fold: whether lengthwise or crosswise, with a hinge or without. This is largely defined by our customers' requirements.

What is a collapsible straight wall container & foldable pallet box?

Whether operating in produce handling or industrial storage, the collapsible straight wall container and foldable pallet box options allow users to adapt configurations to their product protection needs. Made from industrial-grade HDPE or PP, these collapsible plastic containers maintain full rigidity even after multiple folds.

Could a five-in-one foldable container design boost efficiency?

A five-in-one foldable container design certified by the International Geneva-based International Standard Organization (ISO) could boost efficiency and transform the carriages of empties, claims Florida-based Compact Container Systems (CCS). The SeaFold container opened out and stacked Credit: Compact Container Systems

Could a seafold 40" container slash the cost of repositioning empty containers?

More than a fifth of containers are returned empty to their port of origin empty, according to estimates. CCS claims that the SeaFold 40" box could potentially slash the cost of repositioning empty containers by 56%, save storage space by 80%, and drive down carbon emissions by 70%.
