## Rock mobile power portable

What is the best portable power station for camping?

EcoFlow Delta Mini(882Wh) (Update: Out of stock): When we tested it,this model hit a sweet spot of basic functionality,capacity and price,earning it a spot on our list as the best portable power station for camping. It also supported charging with solar panels. Unfortunately,it"s no longer available for sale.

What is the best portable power station?

By far the most portable power station in our guide,the EcoFlow River 2 Pro weighs just 17 pounds and has a large handle along the back. The LiFeP04 battery inside is good for 768 watt-hours,and I managed to squeeze a little more out of it in my tests. The ports are great for camping trips,with everything you need to charge small gadgets.

What is a portable power station?

Portable power stations are generally designed to power smaller electronic devices and appliances,from phones and table fans to heavy-duty work lights and CPAP machines. Pay attention to the estimated watt-hours each brand provides in its specs to determine which model makes the most sense for what you"d like to power.
