
Saudi Arabia Communications 5G Base Station Planning

Does Saudi Arabia have a 5G network?

The report titled, "Benchmarking the GCC 5G Experience," describes the availability of the 5G network -- the time that users spend in an active connection with 5G -- in Saudi Arabia as "outstanding." This reflects Saudi Arabia's rapid growth in the 5G sector as it continues to expand its digital infrastructure with private companies.

Does Saudi Arabia's push to develop 5G infrastructure help the Gulf Cooperation Council?

RIYADH: Saudi Arabia's push to develop 5G infrastructure is helping it score higher in the Gulf Cooperation Council region in terms of achieving strong growth in both speed, video experience and availability of the network, the latest industry report revealed.

What is 5G & how does it affect gaming in Saudi Arabia?

For consumers, 5G means faster connectivity, better mobile video and voice experiences, and more immersive entertainment including high-quality live streaming for gaming, virtual reality, and e-sports -- a major added value considering that almost half of Saudi Arabia's population enjoys gaming regularly.

How fast is 5G in Saudi Arabia?

We compared Saudi Arabia's median download speed over 5G with an average of 5G download speeds around the world during Q1 2021 and found that Saudi Arabia's 5G is 127% faster at 322.42 Mbps.
