
Singapore's energy storage field share

What is Singapore's first utility-scale energy storage system?

Singapore's First Utility-scale Energy Storage System Through a partnership between EMA and SP Group, Singapore deployed its first utility-scale ESS at a substation in Oct 2020. It has a capacity of 2.4 megawatts(MW)/2.4 megawatt-hour (MWh), which is equivalent to powering more than 200 four-room HDB households a day.

Does Singapore have a resilient energy grid?

The Singapore government has implemented a good number of initiatives to ensure the resilience of the energy grid, including the use of energy storage systems ("ESS").

Should Singapore import more electricity?

The Rystad Energy report notes that strong market dynamics could encourage Singapore to look to import more electricity, with both renewable energy, and energy generated overseas, boasting a lower levelised cost of electricity (LCOE) than domestically-produced fossil fuels.

What is the Singapore Energy Statistics (SES)?

The Singapore Energy Statistics (SES) is Energy Market Authority (EMA)'s annual online publication on energy statistics in Singapore. It aims to provide users with a comprehensive understanding of the Singapore energy landscape through a detailed coverage of various energy-related topics.
