
Solar glass prices are stable

Will declining solar PV glass prices bolster global market growth?

The global solar PV glass market is characterized by several key trends that are expected to play an important role in the coming years. Declining solar PV glass prices are presumed to bolster the global market growth over the forecast period.

What are PV solar cell glass price developments?

This post is a summary of the PV solar cell glass price developments. The price developments of PV solar cell glass are expressed in US\$ prices converted FX rates applicable at the time when the price was valid. PV solar cell glass price index developments are calculated from multiple separate sources of data to ensure statistical accuracy.

How big is the Solar Photovoltaic Glass market?

Image © Mordor Intelligence. Reuse requires attribution under CC BY 4.0. The solar photovoltaic glass market size reached 32.10 million tons in 2025 and is forecast to reach 74.75 million tons by 2030, advancing at an 18.42% CAGR between 2025 and 2030.

How will the Solar Photovoltaic Glass market continue to grow?

Competitive strategies range from Chinese producers expanding commodity capacity to Western incumbents investing in circularity, low-carbon furnaces, and specialty coatings. These shifts together position the solar photovoltaic glass market for resilient growth throughout the decade.

Solar glass has emerged as the leading cost contribution to solar modules globally today, with eight suppliers headquartered in China accounting for more than 90% market share.

China's photovoltaic (PV) glass market has recently witnessed a further expansion in the supply-demand gap, leading to downward pressure on prices.

Prices for cells and PV glass, both of which remain high in Q4, are rising every month, and exchange rates are varying wildly. This double whammy struck module makers in ...

Since the beginning of 2024, fuel prices have remained relatively stable, with soda ash prices being the key factor influencing glass production costs. The continuous increase in ...

The solar pv glass market size was valued at US\$ 20,086 million in 2024 and is expected to reach US\$ 25,817 million by 2031, growing at a significant ...

Emerging Trends in the Solar PV Glass Market Emerging trends in the solar PV glass market highlight multifunctional designs and efficiency boosts amid renewable surges. As installations ...

Polysilicon Having achieved less increase in the previous week, trading prices for mono-grade polysilicon prices became stable this week, staying at RMB 93-96/kg and RMB ...

After seeing high-single-digit declines in the last week of CY2024, solar glass varieties maintained their prices WoW in CW1/2025. The TaiyangNews PV Price Index has ...
